

Little Safeguard iOS Setup Guide: Enable the Apple Shortcut

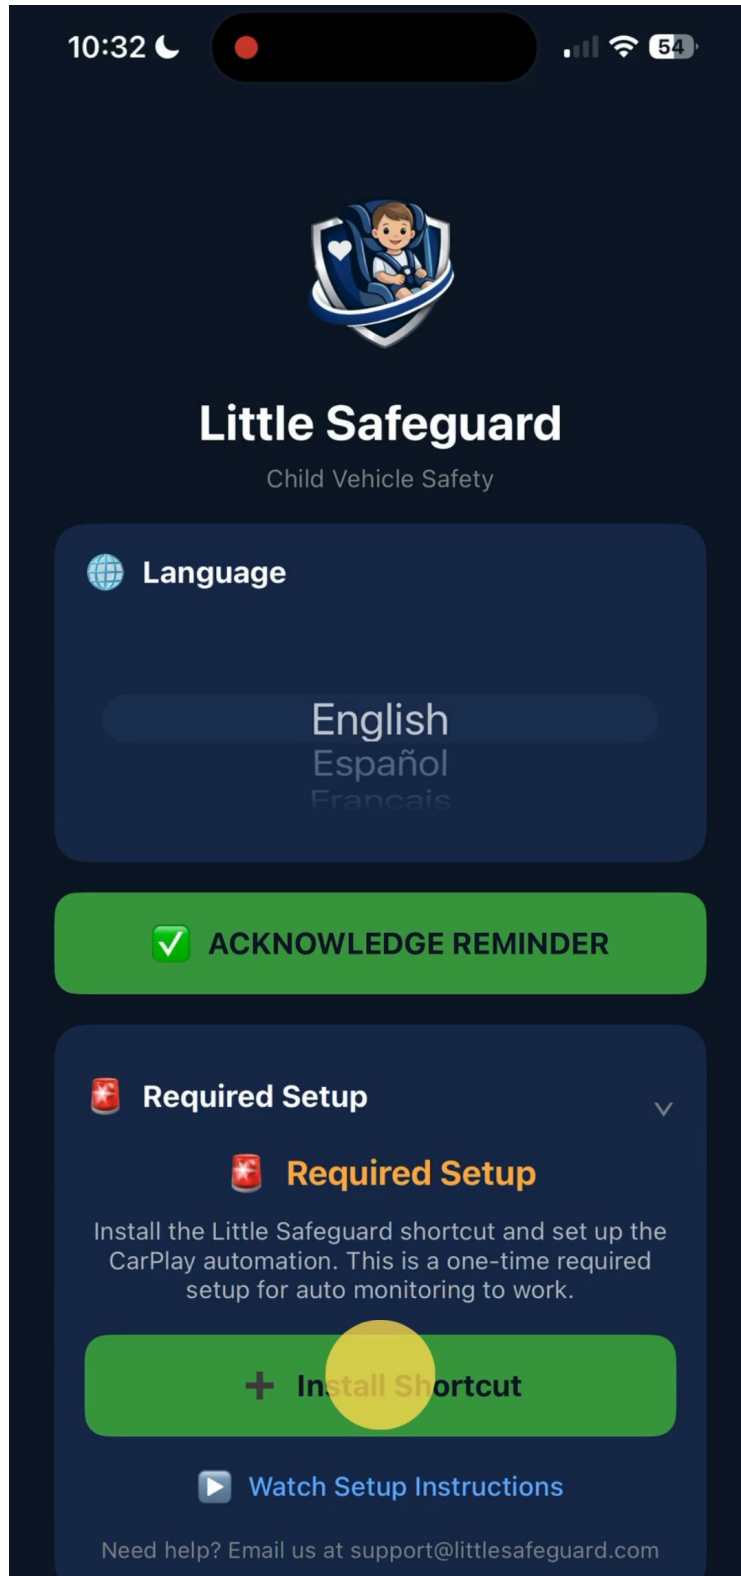

1. Before you begin, make sure you have the Apple Shortcuts app installed on your iPhone.

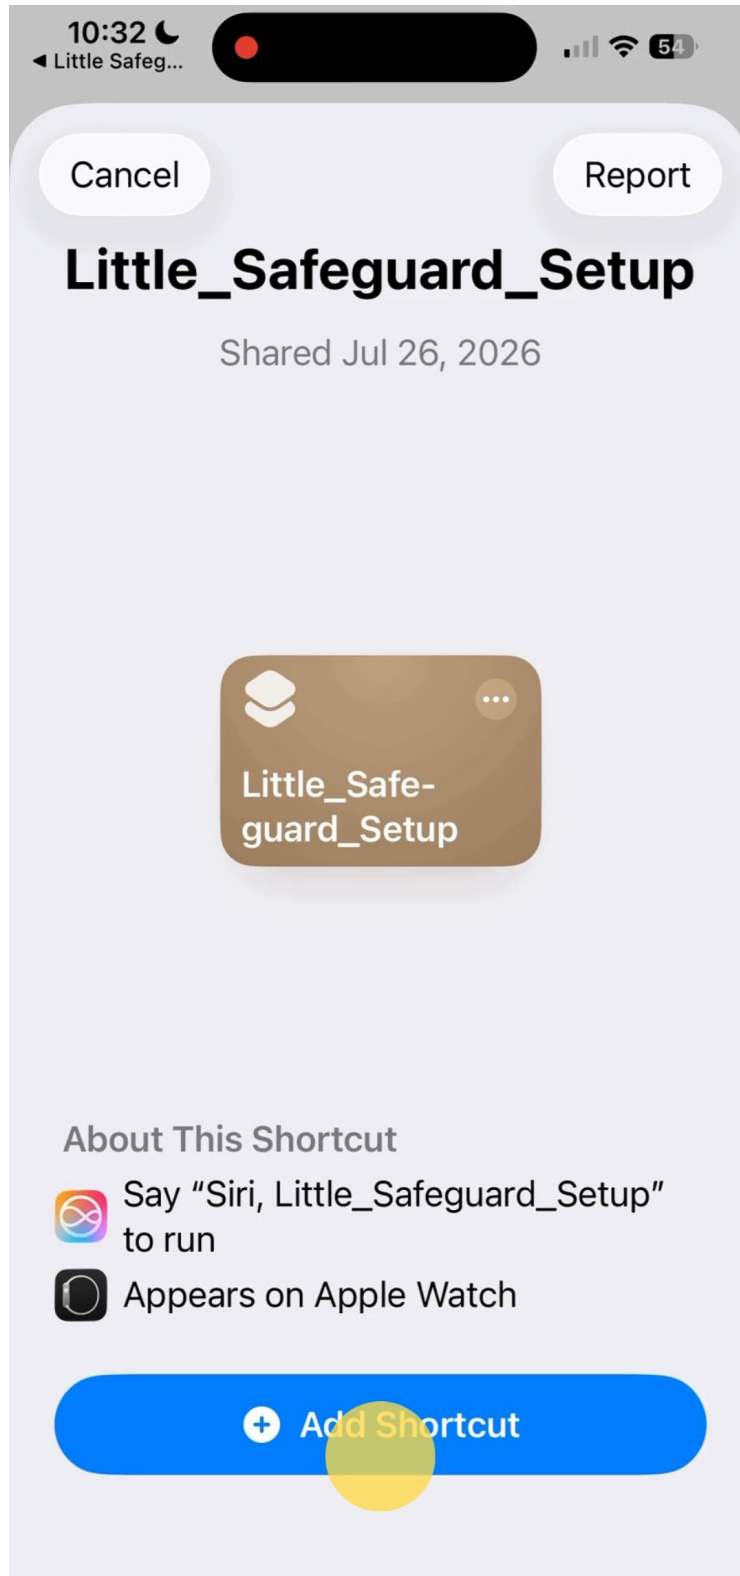

2. Open the Little Safeguard app and expand the required setup section.

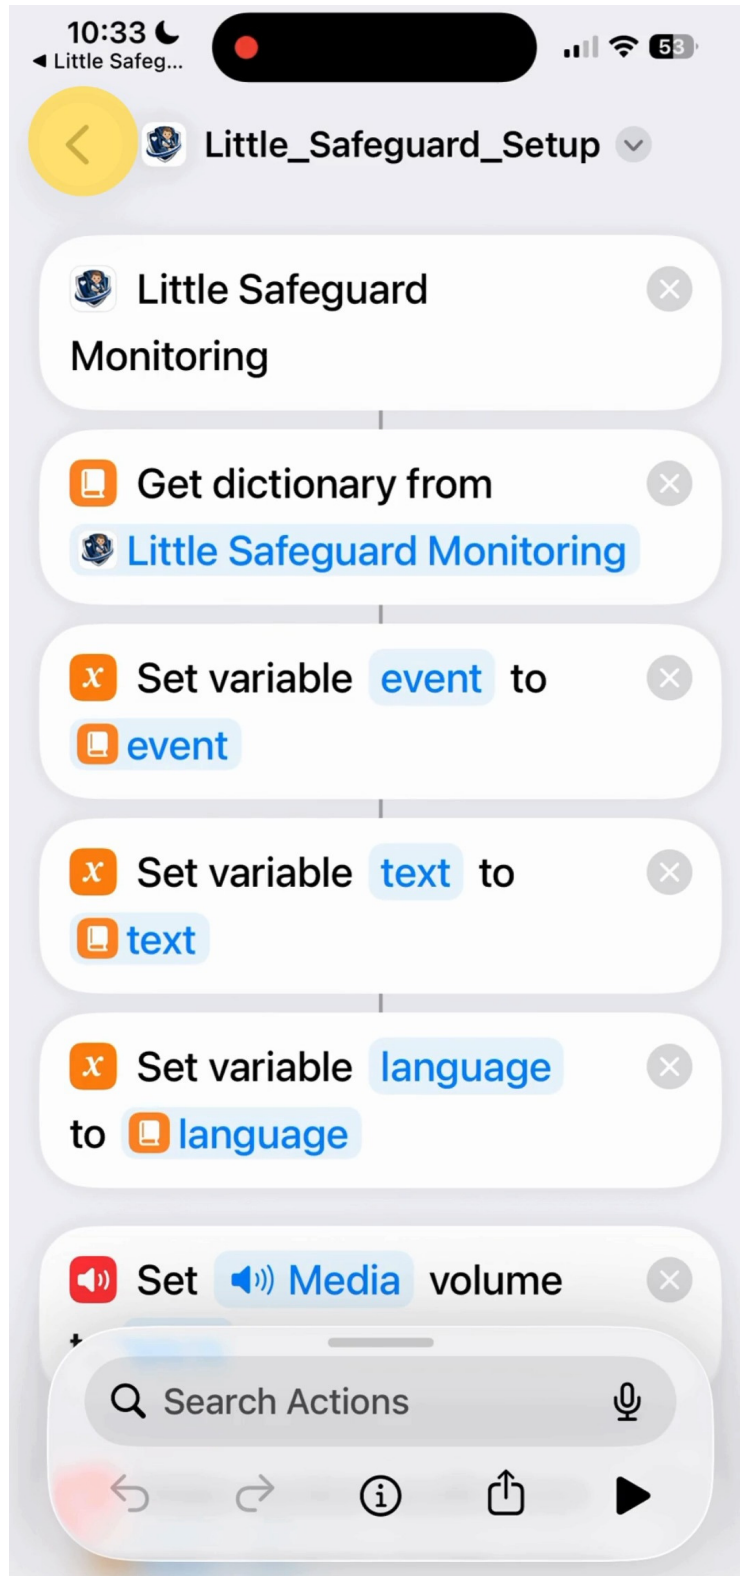

3. tap Install shortcut

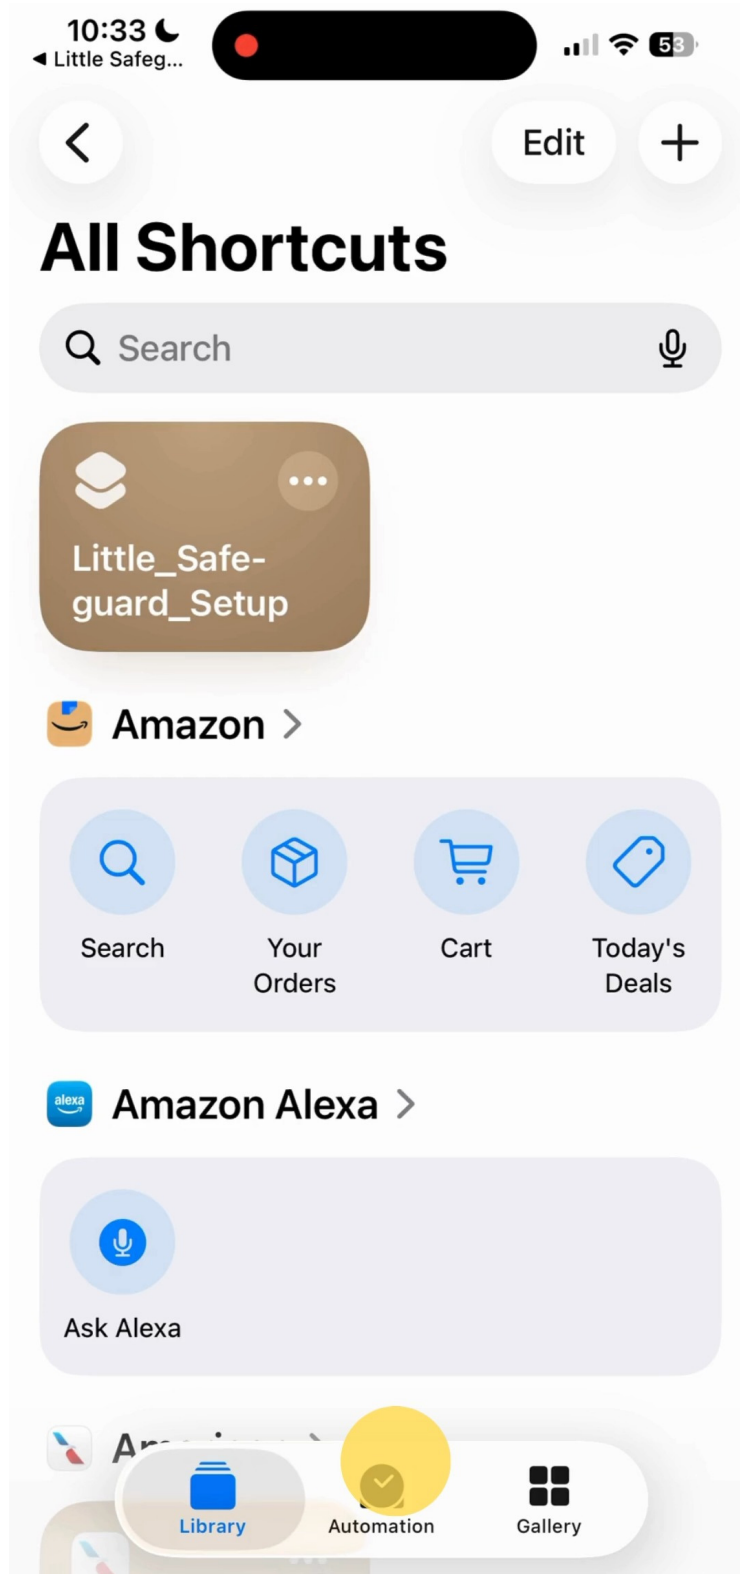

4. Tap Add Shortcut.

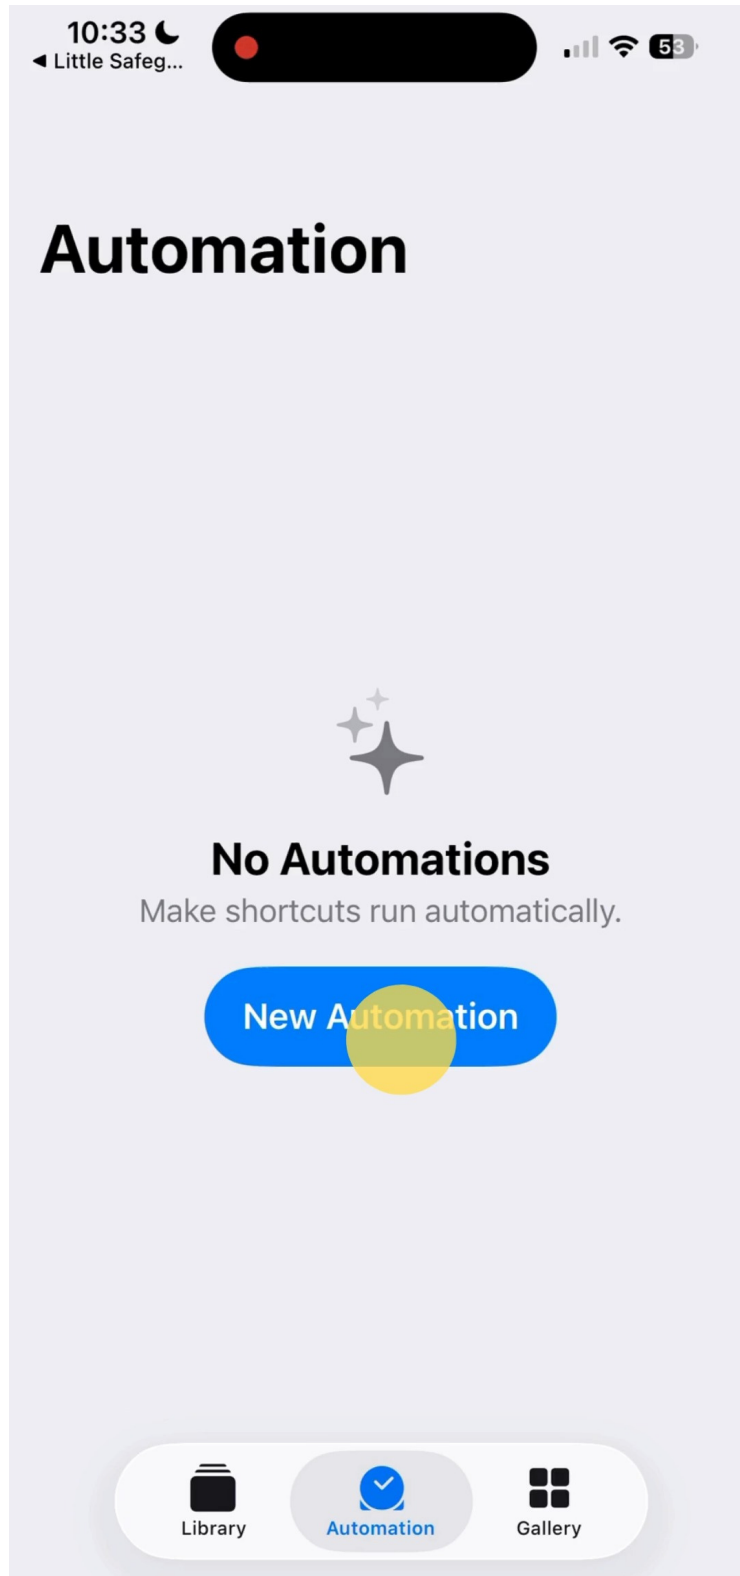

5. Don't edit anything. Just tap the Back button in the top left corner.

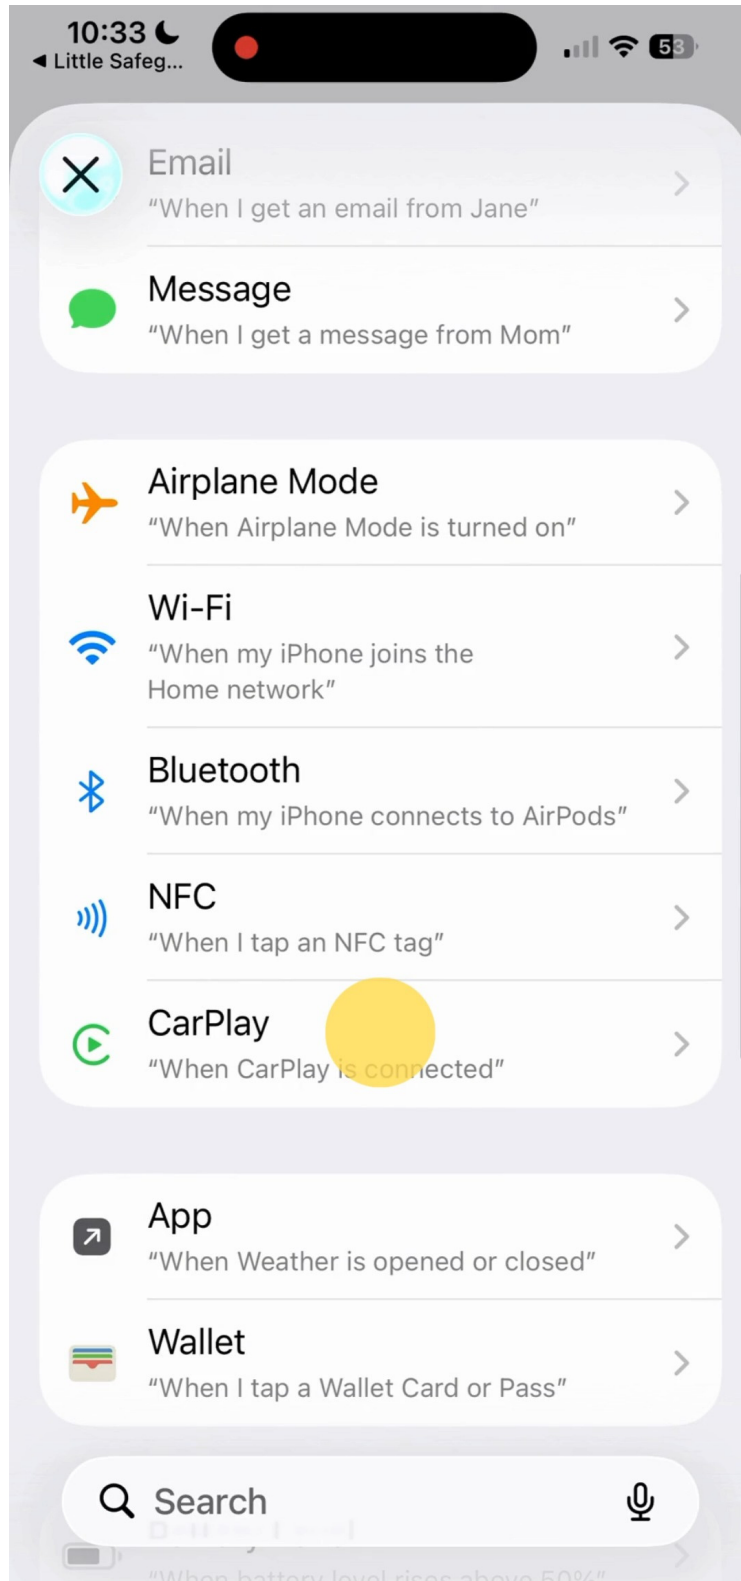

6. Tap the Automation tab at the bottom of the screen.

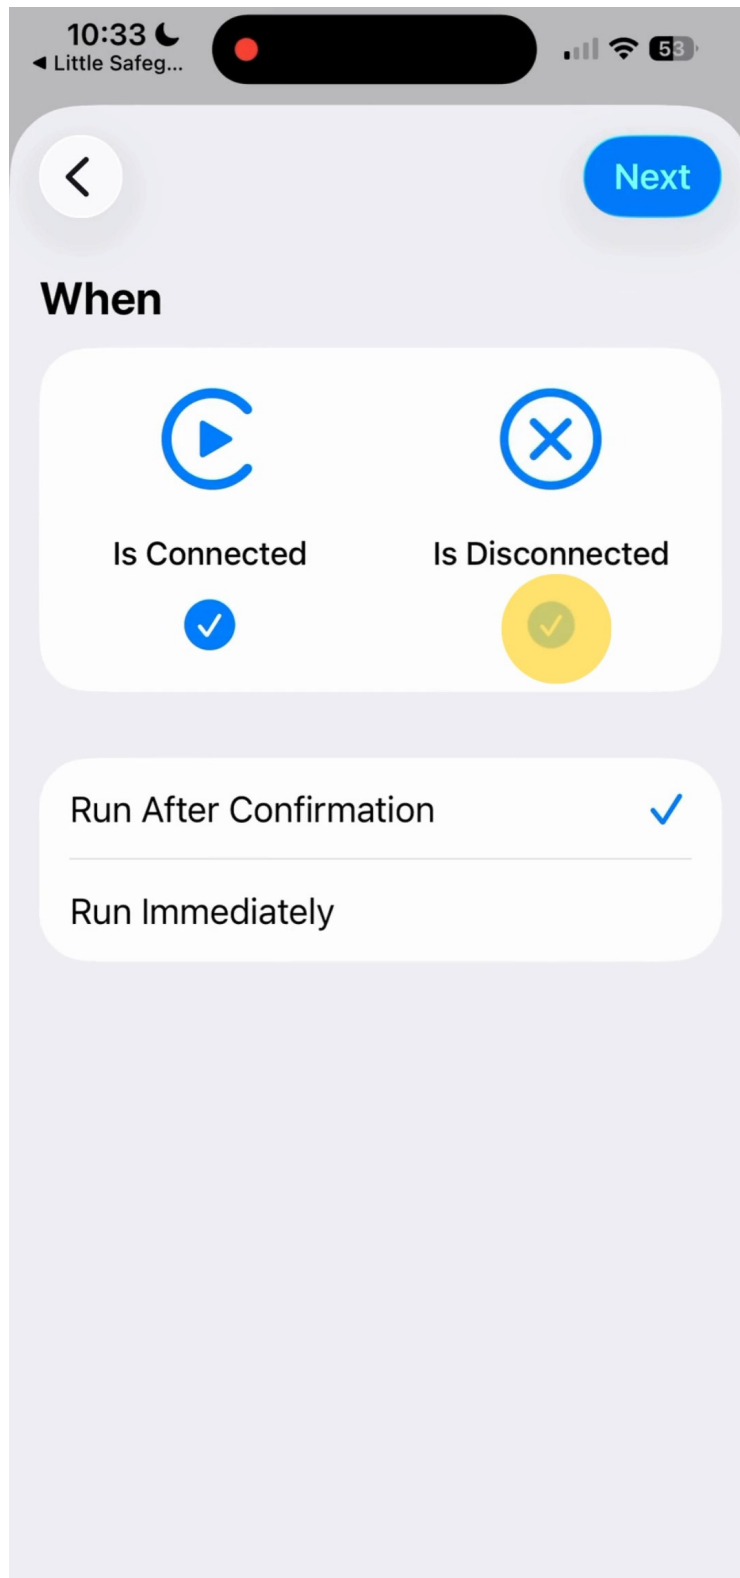

7. Tap New Automation.

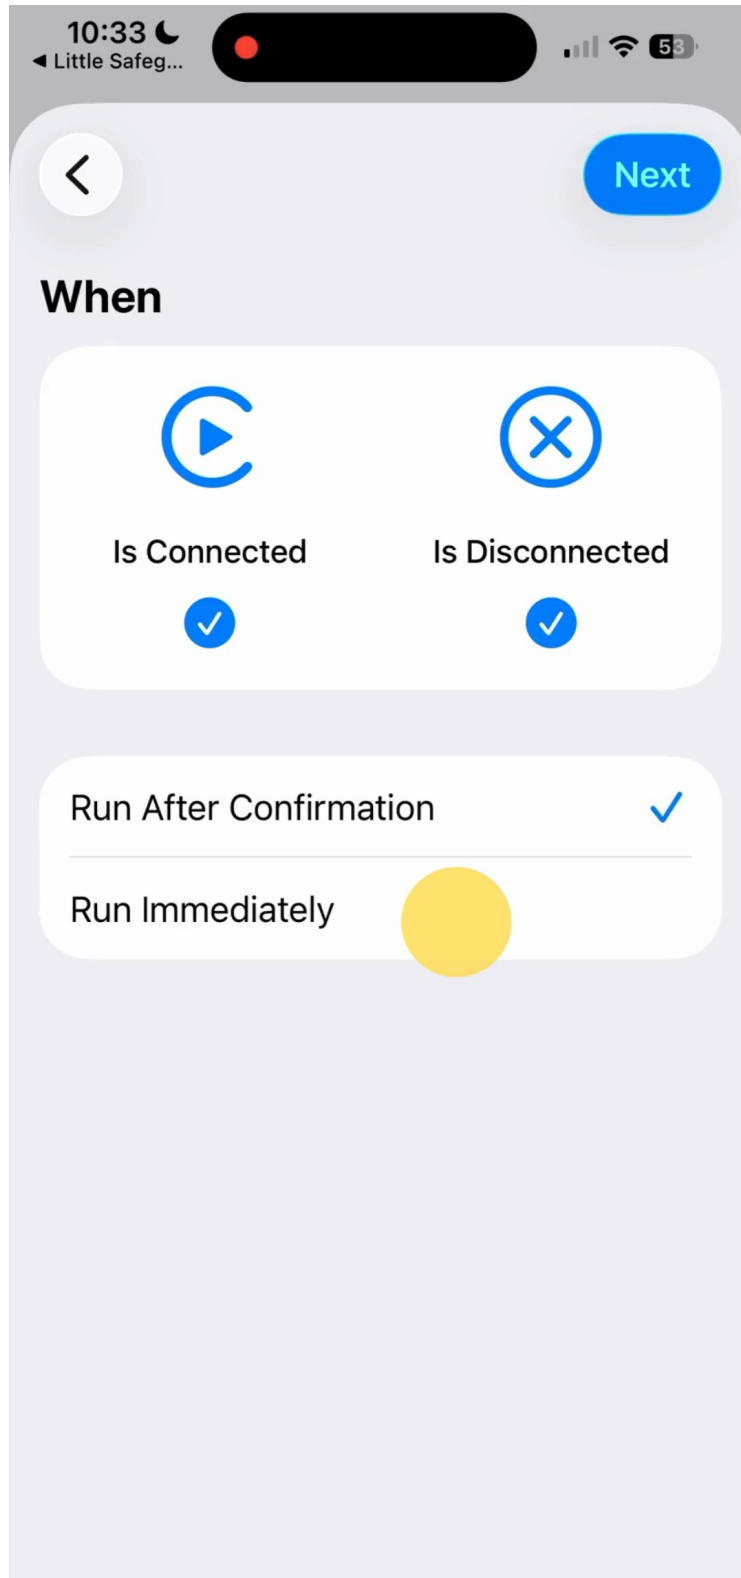

8. Scroll down and select CarPlay.

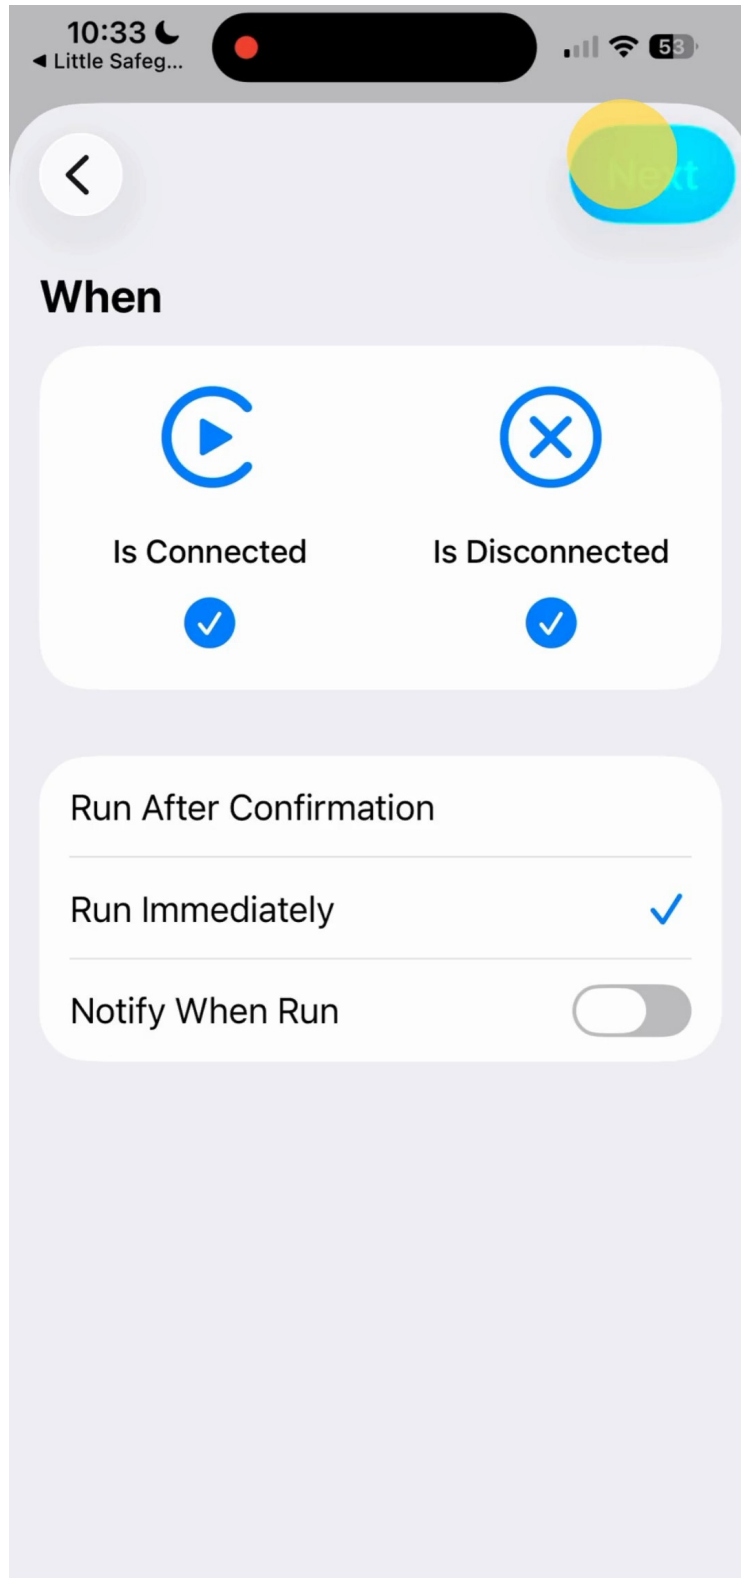

9. Make sure both Is Connected and Is Disconnected are turned on.

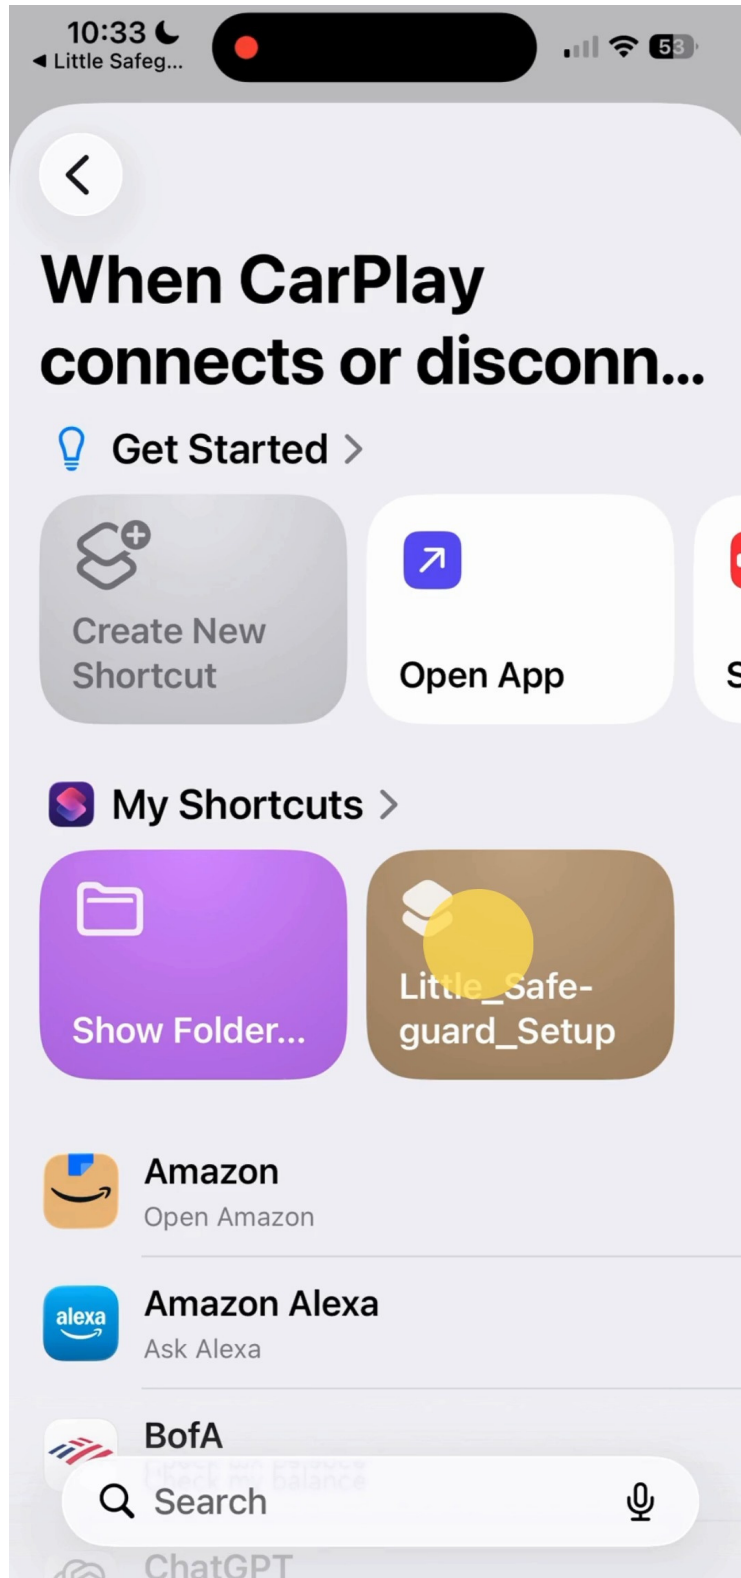

10. Choose Run Immediately.

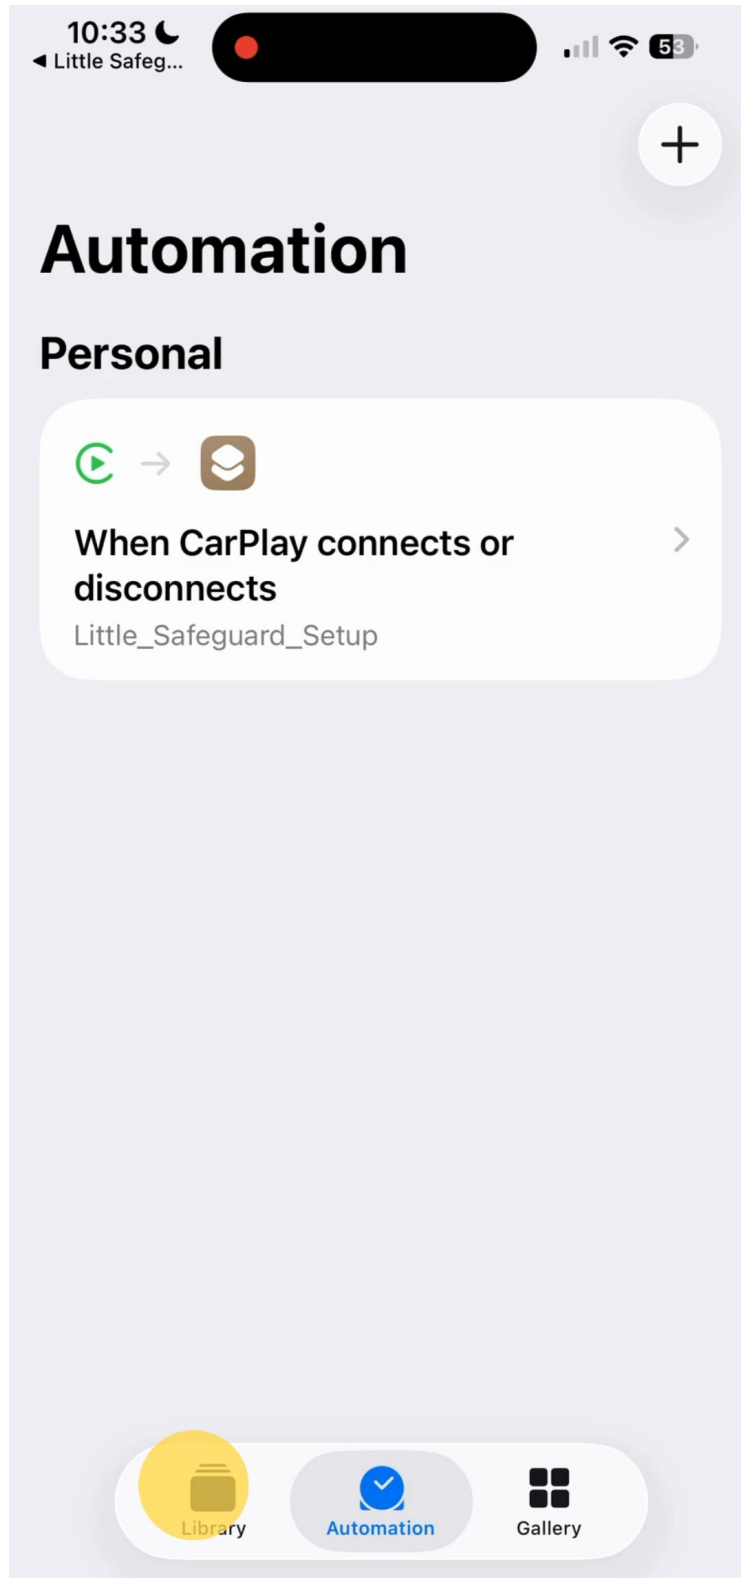

11. Tap Next

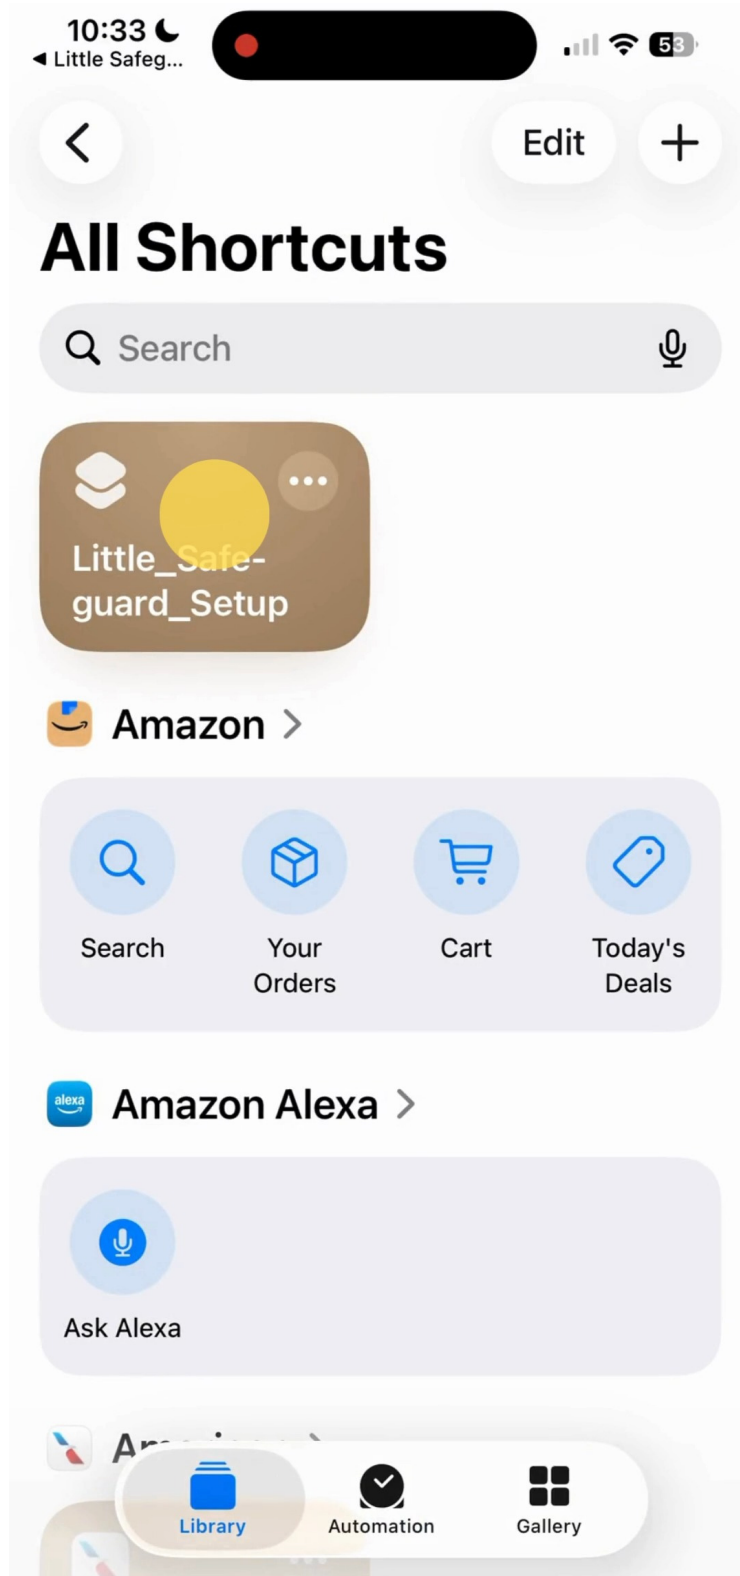

13. Find and select the shortcut you just downloaded, called “Little_Safeguard_Setup”.

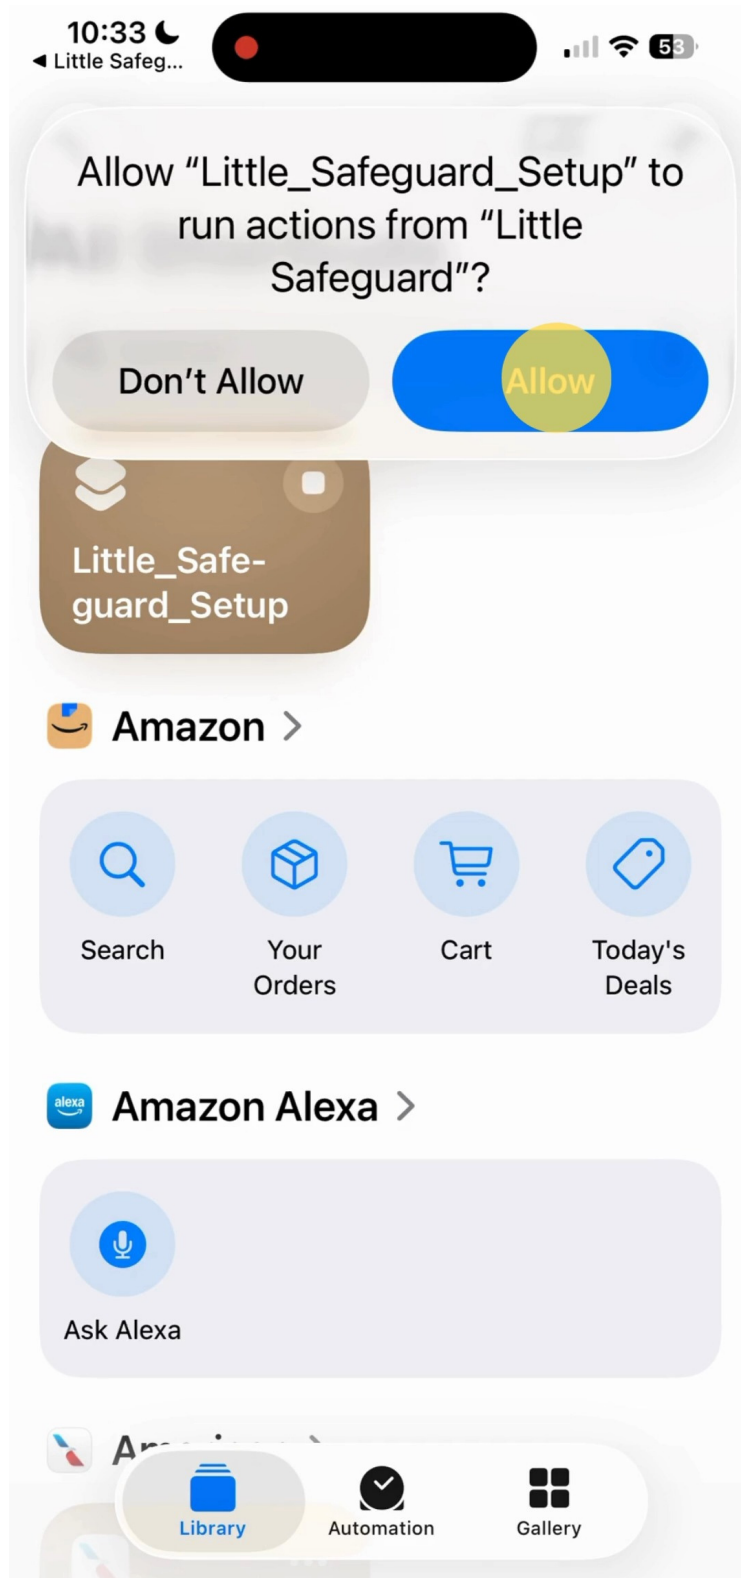

14. Tap the Library icon on the bottom left corner.

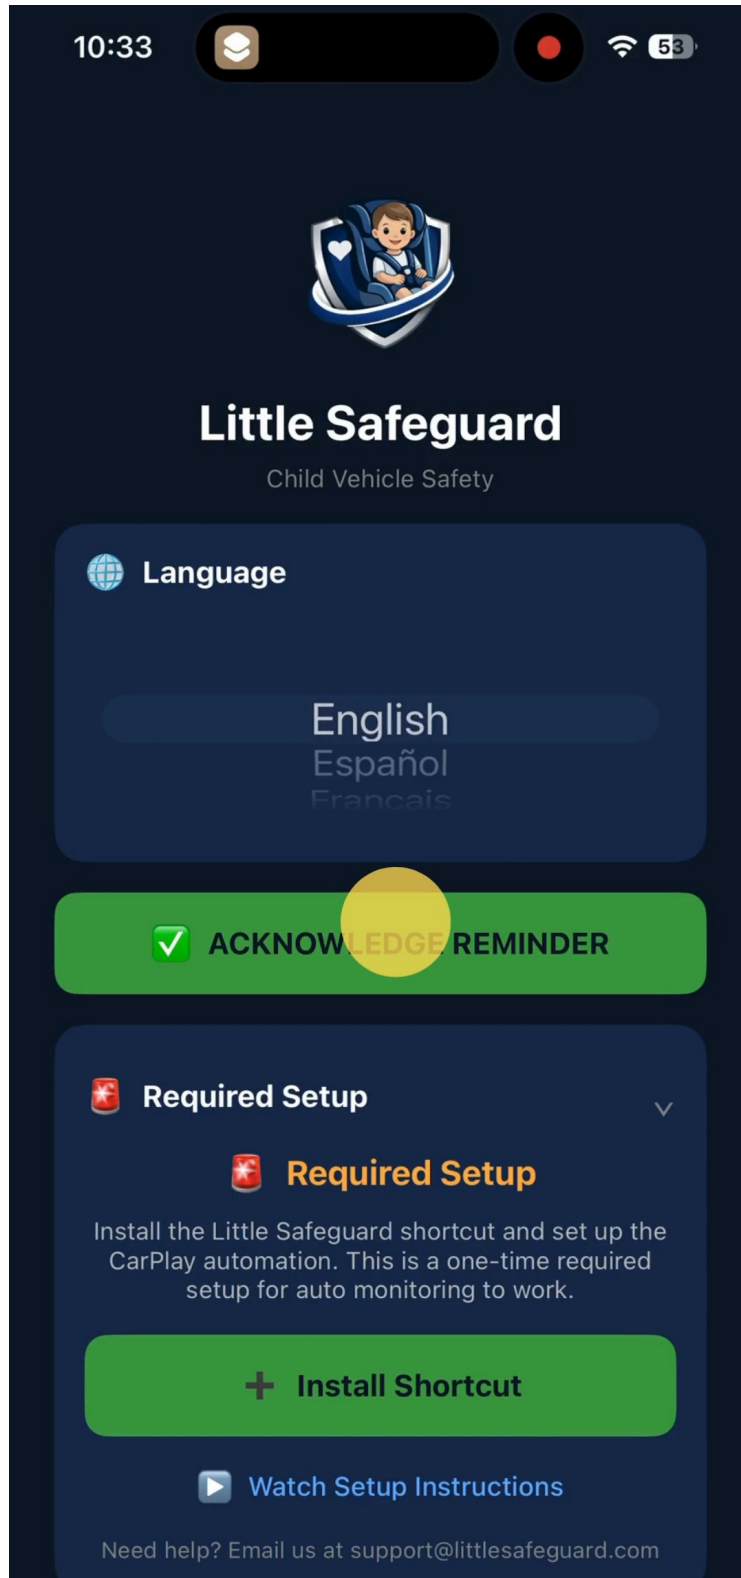

15. Tap the shortcut once.

16. Give the shortcut permission to connect to Little Safeguard.

17. Open the Little Safeguard app and tap the acknowledge reminder button.

It's unlikely, but if you get a false announcement, tap the Acknowledge Reminder button within the app to stop all notifications.

You're all set!

Next time you get into your car and connect to Apple CarPlay, Little Safeguard will walk you through the rest.

Thank you for using Little Safeguard, and stay safe!
